ABOUT

Senior Information Technology student at **Qassim University** and active **GDSC** member, passionate about leveraging technology to solve real-world problems. **Apple Developer Academy — Tuwaiq alumnus**, certified in the **AI Foundation Program**, with hands-on experience building apps, designing intuitive UX/UI, and applying AI solutions. Skilled in **business analysis, market research, and project management**, driven to create user-focused digital products that combine technical excellence with meaningful impact.

EDUCATION

Qassim University — Al Qassim, Saudi Arabia
Bachelor of Science in Information Technology — *Aug 2022 – May 2027*

EXPERIENCE

Apple Developer Academy — Tuwaiq — Riyadh, Saudi Arabia
AI Foundation Program Graduate — *Jul 2025*
- Completed a 5-week intensive program focusing on app development, artificial intelligence, and user experience design.
- Developed **"Darbik"**, an iOS app that encourages physical activity by turning daily walking into an engaging, gamified experience powered by AI.
- Worked in a cross-functional team to plan, design, and develop a product that merges health, technology, and entertainment.

Google Developer Student Club (GDSC) — Al Qassim, Saudi Arabia
Group Member — *Oct 2024 – Present*
- Collaborate on projects and initiatives promoting software development, teamwork, and technical leadership.
- Participate in community-driven workshops to share knowledge on emerging technologies and product development.

PROJECTS

Darbik App | *Swift, Xcode, CoreML, UI/UX Design* — 2025
- Designed and developed an AI-powered fitness app that motivates users to walk more through gamification and intelligent insights.
- Applied **Create ML** and **CoreML** for motion tracking and personalized goal recommendations.
- Launched beta version on TestFlight and gathered feedback to enhance user experience and engagement.

Ridy | *Node.js, Express, MySQL, HTML, CSS, JavaScript* — 2024
- Developed an AI-driven restaurant-ordering platform that allows users to browse menus and place orders exclusively through Telegram, leveraging chat-based interactions for a seamless and intuitive experience.
- Implemented a secure backend using Node.js and Express, integrating MySQL for reliable data storage and retrieval.

CERTIFICATIONS

Business Analysis Virtual Work Experience — BCG - Misk Foundation
Issued Oct 2025 — *Credential ID: VC-CZS4FZIA*

Excel Basics for Data Analysis — IBM
Issued Oct 2025 — *Credential ID: HS5S87U192TQ*

Introduction to Business Analysis — IBM
Issued Sep 2025 — *Credential ID: A4GZKCZWO939*

AI Foundation Program — Apple Developer Academy — Tuwaiq
Issued 2025
